

Here's What Reggie's Students Are Saying...

My husband and I went to Reggie's seminar and got started with his Abandoned Property System. I had just retired from my job of 28 years and needed a new career. I was so excited to learn all that I could about finding abandoned properties. We found one, made an offer on the property and got the offer accepted. After we fixed it up, we sold it and made a profit of over \$77,000! THANK YOU REGGIE!!! I never would have taken the first step without your program. I am truly excited about what can be done with the knowledge that you have given us, and the push into this new and fun career.

My first encounter with Reggie resulted in me making \$10,000 on my first abandoned property. I tied up an abandoned triplex in Los Angeles and wholesaled the property to another investor. Although I was brand new in my real estate investing career, Reggie made me feel very comfortable because of his expertise, patience, and genuine desire to teach and help his students. His encouragement and understanding helped me not only believe in my real estate career abilities, but most importantly, believe in myself. Thank you for being an incredible role model, mentor and friend.

I have to say that we were skeptical that we could make this kind of money with an abandoned property. You showed us what to do, and we followed your lead. We found this abandoned property and the owner over the Internet. It was so exciting! While we were improving the property, the values in the area were going up fast. I've attached a copy of the check that we collected at closing. Almost \$400,000! We're still in shock!

And this is only one of many deals that we done over the last few years!

There's one thing that we know for sure. We now have an incredible lifestyle. We do what we want when we want, for as long as we want, and our kids will have more of the same to look forward to! Thank you for your support and your guidance.
